Not suitable for Fiat/Alfa/Lancia with ICS(integrated control system) system 5. May requires hooking up the two black wires(Ground wires) together,which are attached on the 8pin connector Guangzhou Yatour Electronics > 2.3 Installation steps1. Turn off car engine and remove key from ignition, if car radio uses a security code, make sure that youhave the code before unplugging the radio.2. Unmount the radio from the dash in order to get access to the back side of the radio, and find CDChanger port at the back of the radio. For details of unmount, please refer to car user manual or carstereo manual, or ask professional staff to unmount the radio.3. Connect wire harness to YT-BTA module unit in advance. Be sure to make a firm connection. Thenattach the wire harness connector to the back of stereo to the CD changer port. And attach the groundwire (for some models) to metal part of the car stereo body. For some models requiring extra connectionof ACC or 12V battery, please connect related wires to correct ACC power or 12V battery power.4. Connect our microphone to microphone port of YT-BTA module unit. Choose a proper mountinglocation for the microphone either on the upper part of A-pillar on driver side or near centre rear viewmirror or head liner console control panels region. Carefully arrange plugs .To guarantee the voicequality,please mount the microphone next to driver as close as possible.If a user already has remotecontrol unit , please mount remote control unit on dash board or any position easily touched by driver,and carefully arrange plugs at last.5.Turn on the car and power on car Head Unit, press CD (or Disc / Mode / CDC / SOURCE / AUX) buttonfor once or twice to switch to playback mode of YT-BTA, with the symbol of red LED light being on.6. Turn on the Bluetooth function of mobile phone, search and pair with Bluetooth device named "BTA".Mobile phone will be able to connect to BTA after paired successfully. Test with mobile phone to confirmwhether Bluetooth phone call and Bluetooth music work normally.7. After successful test, re-assemble the radio, and put wire harness and module unit box in properplace(glove box,storage box, etc.),fasten screws between module unit and wire harness. Put back carhead unit into original position. Now the installation is finished.2.4 Important Note:1. As to some vehicles with external CD Changer, which occupies original CD changer port, ParallelHarness is needed to keep the use of original CD changer (For some models only). Installation refers toformer diagram.2. As for Audi factory radio of mini ISO 8 pin, its CDC connector is 20-pin block connector, in order toinstall YT-BTA, it requires to cut the 8-pin part or connect with our special Audi 20-pin adapter cable.3. As for Clarion protocol radios, such as some BUICK radio and SUZUKI radio, it requires to totallyunplug the wire harness from car power before installation. Moreover, it is easy to plug connector in theopposite direction on Clarion radios, which causes short circuit. Make sure the connector is plugged incorrect direction.4. As for installation on CAN-Bus radios of Peugeot/Citroen, Renault, Ford (new) and Mazda (new) andOpel, it is required to unplug the radio from the power before installation. Otherwise, YT-BTA might network improperly or the radio might be caused damage. Regarding Peugeot/Citroen without pre-installedCD Changer, to enable YT-BTA to work, the CD Changer function must be activated by professionaltools. Please enquire the Peugeot/Citroen dealer on how to activate the CD Changer function.5.As per BMW radios with CD Changer, the CD Changer must be completely disconnected before
